Tompkins Park

Well during this summer we've had a lot of changes in this neighborhood. (the lower east side of NYC) Not only was the part (Tomkins Square Park) closed, with 10 foot high fences put up, it's also been completely torn apart, for renovation. Tompkins Park

Well during this summer we've had a lot of changes in this neighborhood. (the lower east side of NYC) Not only was the part (Tompkins Square Park) closed, with 10 foot high fences put up, it's also been completely torn apart, for renovation. This may sound harmless enough to some, but when there are constantly over 100 police around a 1 block area, with police vehicles of every kind imaginable from Ave A to Ave B, which prevent us from even standing on the sidewalk in front of the park, it becomes another story. Some billion dollars were spent tearing down the park (including the bandshell) and the repairs and rebuilding is not even in sight, as the city is in the midst of such a budget crisis, they of course do not have the funds to rebuild it anytime in the near future, if not likely for several years. When they do not only is a good portion of the park to be paved over, but 1/3 the seating will be replaced (and all individual seats, not benches) This falls nicely into the city's plan for gentrification, and I see the closing and take over of the

park as a huge defeat in the peoples struggle, and it represents a lot more in this case. With the loss of the park, and everything it stood for, the city is one huge step further to it's take over of the neighborhood. Ave A has already been taken over and each year the yuppification seems to move 1 block further east. So it's only a matter of time before the squats are taken over and god knows what else. Actually just a few weeks ago, in September there was a threat of eviction of all squats, and even though this was not successful, and I think only 1 was closed, it still seems to be on the city's future agenda. Amazingly enough, this bankrupt city did have the 2.5 million dollars a day it took to hold the police force (with full riot gear) in act., I guess due to the city's increased awareness of protection. Needless to say with all the force around the park, 1 or 2 blocks away, there are still robberies, muggings and drug deals which go unnoticed. So it seems pretty pointless and yet sort of ironic. By now (Oct.) things have mellowed out a bit,

and there isn't quite the overbearing amount of police that there was in July, but then again maybe I've gotten so used to the police state, I don't notice it as much, which is the scary part. I do notice when they verbally harass me, and when they swing their batons ready to swat at anyone. So even though the force of numbers has gone down slightly, maybe they realized it just wasn't necessary, that there is no park to take back, or they just ran out of money. that doesn't mean that this is all over.

This city is falling to shit fast. economically it's got nothing. The city can not afford to support it self, and it's falling apart day by day. It's already nearly impossible to afford to live here, and especially with a loss of this neighborhood (the LES) is a loss of the last affordable housing in Manhattan (which in itself, isn't very affordable) I was talking to an African man one day who was returning bottles, and he said this city is looking more and more like a third world country each

day. He found some humor in it, that with all the freedom we are supposed to have, we have still managed to fuck things up in our own country that we are losing control of. Ironically it's turned out nothing like it was originally founded to be. I had a great chat with this man who saw so much and summed it all up in so few words..

Things are definitely going down, and there seems little hope for them to turn around. the priorities seem to be out of whack, there is no money for social care, and no money for recycling and environmental work. yet there is money to tear up and leave a park, vital to the community and keep an overstaffed police force at all time. yes, it seems that they city's priorities are definitely out of whack and the city does not have the peoples interests at stake. The city on the otherhand is working against the people and people have less and less control (if any) over their own lives. This is happening everywhere, our "freedom" is being lost but it's much harsher and more apparent (as is everything) here in the city.

RECYCLING TIPS

Aluminum: Not only cans are recyclable - foil, tv dinner trays, scrap aluminum.... there are lots of things.. check with a magnet to check, aluminum is not magnetic.

Tin: Take lids off and crush cans to save space

Avoid single use products (such as razors, plastic utensils, plates etc...)

HOUSEHOLD ALTERNATIVES

HOUSEHOLD ALTERNATIVES

All Purpose Cleaner:

Use hot water, soap & borax or use 1/2 cup "washing soda" per bucket of water.

Problem: Avoid ammonia, which attacks your lungs, & chlorine which forms cancer causing compounds when released into the environment.

Aluminum: Not only cans are recyclable - foil, tv dinner trays, scrap aluminum.... there are lots of things.. check with a magnet to check, aluminum is not magnetic.

Tin: Take lids off and crush cans to save space

-Avoid single use products (such as razors, plastic utensils, plates etc...)

-Find reusable items

-**Carry your own** coffee mug, and do not use or take styrofoam.

-Make the people you live with cooperate with your recycling efforts at home.

-**Find bulk food coops** which are good for beans, pasta and other dry goods, you'll save some money and save packaging.

-Find chinese groceries that sell tofu blocks loose, also available is soy milk in bottles, instead of those aseptic drink boxes.

-**Stop Junk Mail.** to have your name removed from mailing lists. write to Direct Marketing Service 11 W 42 St. POB 3861 NY NY 10163.

-Reuse junk paper. Use the backs of paper for notepaper.

-When mailing use prestamped postcards instead of envelopes, when possible.

-Don't use styrofoam peanuts for packaging.

-**Garage sales.** Second hand products are the best way to recycle. Reuse things, or give them away. Likewise pick up second hand items that you need. Don't throw it away!

-**Conserve Energy.** Use less energy and use it more wisely. Fluorescent adapter bulbs are now available, which conserve energy by using less wattage (for same brightness) & they last longer too, which will also save you money.

-Rechargeable Batteries.

-Adjust settings on water heaters & air conditioners to conserve energy.

-Create a demand for **recycled paper**, by using it. Don't waste paper at home or at work, and encourage others to conserve also.

HOUSEHOLD ALTERNATIVES

HOUSEHOLD ALTERNATIVES

All Purpose Cleaner:

Use hot water, soap & borax or use 1/2 cup "washing soda" per bucket of water.

Problem: Avoid ammonia, which attacks your lungs, & chlorine which forms cancer causing compounds when released into the environment.

Dishwashing Liquids:

Use: Liquid soap such as castile or rub a damp dishtowel over a bar of soap. Look for naturally derived or glycerine based soaps.

Problem: Most Dishwashing liquids are detergents (not soap) which are derived from scarce petroleum, are non-biodegradable & contain artificial fragrances & colors.

Laundry Products:

Use: Soap products which boost "washing soda" It brightens all fabrics & costs less.

Problem: Most products are non-biodegradable. Even phosphate free biodegradable detergents contribute to water pollution.

Glass Cleaner:

Use: alcohol to remove commercial glass cleaner. Then a mixture of 50% white vinegar & 50% water.

Problem: Glass cleaner emits ammonia mist, which you breathe. Ammonia is a poison, although usually without a warning label

Disinfectants:

Use: 1/2 cup of Borax in 1 gallon hot water. This meets germicidal state requirements.

Problem: Most disinfectants are filled with toxic chemicals - including phenol, formaldehyde & ammonia, some of the fumes can even escape through tightly closed containers.

Drain Cleaners:

Use: Always use a drain basket, to maintain clean drains. Mix 1 cup baking soda, 1 cup salt and 1/4 cup cream of tartar. Pour 1/4 cup of this mixture down drain and follow with boiling water. Clear clogs with 1/4 cup baking soda followed by 1/2 cup vinegar. Cover till fizzing stops, then flush with boiling water.

Paints/ Paint Thinners:

Use: non-toxic, vegetable based paints, stains & lacquers. Finish woods naturally with wax. Use a head gun sandpaper & scrapers to remove finishes from wood. Natural dyes and paints were used for centuries before the onslaught of chemical paints.

Problem: Up to 300 toxic substances, including solvents & fungicides have been found in commercial oil and latex paints. Harmful vapors remain for months after paint dries.

RECORD REVIEWS

Reviews: Due to the amount of stuff I've been receiving, at this point I can't guarantee that everything will get a review. I am going to put energy into reviewing things I feel are related to this , and focusing on DIY. I'll try to give everything at least a mention. When sending things please indicate how much ppd the items are available for.

Swil Benefit For Beer comp 7"

This debut swil record does a great sampling of NYC's drunk punk rock bands. 1 side gives us the Deviators w/ a very '77 style pogo punk & the Casualties drunk & disorderly early 80's mohawk pogo. Public Nuisance have a pure beer pogo punk song & then Jesus Chryst bring in a good heavier thrashy punk rock song, to bring together an assortment of Lower East Side beer pogo punk. \$3.50 ppd c/o Seaweed POB 20691 NY NY 10009

Lube Job comp 7"

SFA hooked up with these other Pittsburgh bands w/ a new powerful good tune. Necracedia (SFA's label mates) continue the HC tradition with a good punky tune! Doomwatch is sounding pretty hardcore on this tune, & yet kinda rockin, or should I say crankin. Submachine in contrast brings a more upbeat punky-hardcore song. All together, these are some great bands, bringing together a good record, worth checking out! \$3.50 ppd to: Rust Records POB 81942, Pittsburgh PA

NOFX "ribbed" lp (Epitaph)

I always regreted not getting their first LP, & since then I've lost interest. More upbeat & fast singy melodic post punk. Light-hearted & basically goofy, lots of songs about sex and general obsession w/ condoms & sex. (What happened to the "hard" in hardcore?)

Born Against "Nine Patriotic Hymns for Children" lp

Their first full length lp of heavy slow musicly complex and dischordiant (offbeat and crazy) hardcore of the political realm - esp. religion & war. After touring the country this summer they have gotten to be really popular, and most people are already now familiar with this band. this record available for \$6ppd to Vermiform POB 1145 Cooper Stn. NY NY 10276

Nausea "Cybergod" 7"

Okay, I'm a bit biased, which makes this hard to review, but none the less this is one of my favorite releases from one of my favorite bands. They've pretty much made a name for their own style, so there is no point in trying to compare them to any other bands. This is heavier and more powerful than their previous stuff, with an excellent recording and production job, that really do the songs justice. Cybergod with m/f dual vocals was my immediate favorite, but with each listen Body of Christ has grown on me, so they're now about equal..... both are incredible and this is totally worth checking out! (Allied Recordings)

Misery "Production Through Destruction" lp

Finally a full length lp, which includes some old tunes from the eps with new ones. Musically it's much the same and I still like it a lot, heavy hollow, nearly glooming with super bass that

Econochrist 7"

They've got their sound down, I think it's a California thing. Musically complex with all kinds of crazy things, dissonant thrown in. & it's all pretty heavy hardcore with lots of guitar accents. Along the similarity lines of Born Against. Write: Vermiform POB 1145/cooper Stn. NY NY 10276

Demise 7"

Pure hardcore, with the intense driving power and punch. Kinda old US style. It's punchy hardcore, but not mosh or metal at all Write to 2401 N Layton / Milw. WI 53221

ST1 comp.

this comp of political "peace punk" type bands has Media children with a new song, in the same style - very noisy and Shri! & Dirt like. Holocaust have a hollow & heavy driving hardcore sound. Social Insecurity are really thrashy & kinda noisy with that non-metal (acoustically guitar) sounds/basement like. Unauthorized have a good tune much heavier & bassierAll together good political hardcore. Write: 332 Peachtree, Lima OH 45805

Econochrist/Detonators split 7"

2 songs from Econochrist with their gallopy variational hardcore. The vocals give it a strong identity & unique song. 1 song is a Devo cover of Uncontrollable Urge. Detonators are really old style HC/punk very upbeat and punk rock man!! Write to Very Small Rec. POB 8223/ Emeryville CA 94662.

Inhuman conditions 7"

Not at all what I had expected. this is like old US style HC, reminiscent (vocals esp.) of Social Unrest. Guitar has a more metal tinge, but still very upbeat & medium melody HC/Punk. Excellent!! \$5pdd to Holgar Schmidt/ Droste Holshoff Str. 42/W 4709 Bergkamen Germany.

Misery "Production Through Destruction" lp

Finally a full length lp, which includes some old tunes from the eps with new ones. Musically it's much the same and I still like it a lot, heavy hollow , nearly glooming with super bass that really stands out. the vocals are the weak part, that could really make it all much better.

Antisect "Live in the Darkness"

This is the official live recording taken from 1984's tour with Crucifix. This is the only multitrack live recording (also remastered at Southern Studios) which makes for an excellent live quality. All the songs are off the "In Darkness" lp. so this is a great way to get a hold of the rare material. The recording is really good with loud and clear vocals from an excellent band. UK pressing is sold out, But the US pressing is available (white vinyl) single copies \$9pdd to POB 2067 Pet. Stn. NY NY 10009. Distributed through Profane Existence.

Rorschach/Neanderthal split 7"

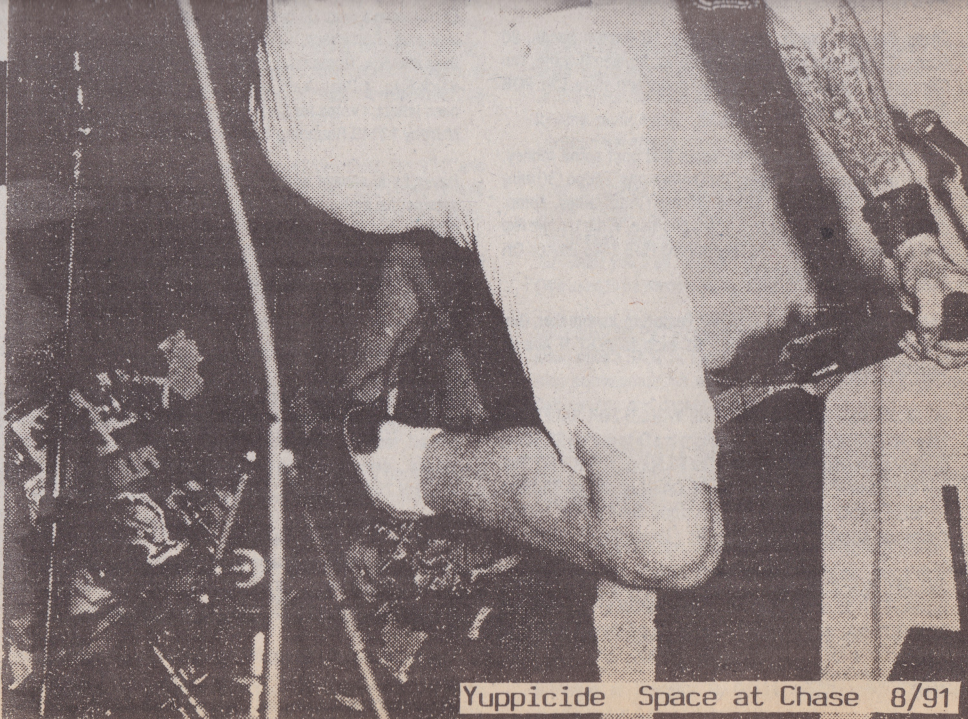

(comes with Dear Jesus #38) Rorschach are doing a thrashy hardcore which unlike the last 7" sound nothing like Neurosis. charles sound slike he is gasping for a last breath in between pure thrashing hardcore. Also do a cover of Hardware by Septic Death. Neanderthal does pure noise thrash, 2 songs that speed right by.

Mathather comp 7" flexi

Things change has a good song that reminds me alot of the East Bay style HC, upbeat yet slight Calif melody (Econochrist type vocals) Sanity Assassins have a unique sound with a keyboard and singing, sort like early 80's new wave. Radiation Sickness, this dudes's vocal chords have been sliced to a rasping scream onto fairly powerful adn mosahable beat. Bobwirse have an antiwar thrashy fast hardcore song. Together this international deal has a lot of variety & all songs are pretty good to check out. For an IRC you can get the full catalog with more on these bands. \$5pdd Old World Records Jagerstr 19/3150 Peine W. Germany.

Pay The Man 7"

Ok I feel like I'm at CBGB's at 3 am for the extra band. One side is pretty crazy with a woman vocalist, kinda whiney & lots of twist with music, like spastic guitar and tons of crash drums, which sound noisey. Side 2 brings male vocals which is more soothing, but still in a late night club. info 927 1/2 Lucille LA CA 90026

No Punks In the Pit comp 7"

This is a comp of Chicago area bands coming together & proving to all us doubtful people that there's some HC bands in chicao. Features Ivy League, dickey Mo both doing fairly melodic upbeat HC of the '90s, which is pretty abstract. Billingsgate has a harder more NY type drive to it. mannequin Hand is even more melodic on the emo core type sound. \$3pdd to Shake fork Records POB 9711 Downers Grove IL 60515

Necracedia LP

Finally this crazy bunch have a full length lp, and it sure is a winner! Now this is hardcore, old style, not the hard mosh shit, but the upbeat fast hardcore like from the mid-80's. AF, Battalion of Saints crossed with lots of punk influences & little Elvis & zaniness to pull together one of the best bands around doing old hardcore, with a unique touch. defiantly check this out!!!!!! \$7pdd Wreckage Records (\$10 for CD split with SFA LP) 451 W. Broadway 2N/NY NY 10012

Wing Tip "Sloat" 7"

packaging is the highlight, this had a unique hardcore cover with an assortment of goodies from a tea bag to a dead bug & excellent burgundy vinyl. Musically noisy (unsynthesized) somewhat industrial experimental type. Reminds me of an alternative music night in a basement cafe, which all falls together better than I expected.

Worn Out 7"

Hardcore from Switzerland, ranging from power mosh with metal tinge to some melodic parts. Sung in English but the accent comes through. It's got a lot of variety through it which keeps it moving. Agnostic Front style music with Biohazard type vocals. Far Out Records Silhaurian 68134 Adliswil Switzerland.

Confusion 7"

Thrash Thrash Thrash, Super gruff vocals, really fast Heavy & metal, Napalm Death style Thrash. Personally I'm really bored of this. It's to thrashy for my tastes.... \$5pdd to Holgar Schmidt/ Droste Holshoff Str. 42/W4709 Bergkamen Germany

Pennywise LP (Epitaph Records)

California pop-melodic surf type punk. Upbeat melodic singy poppy sound, similar to Bad Religion style. Pop punk/hardcore I think. Hardcore dosen't really say much anymore, cause these bands aren't really hardcore, they're more mass appealing I find.

Down by Law LP (Epitaph)

This sounds so much like Dag Nasty, and well for a god reason I suppose since Dave Smalley is singing. Sorta continues where Dag Nasty left off. The sound is about the same, but moving more melodic and poppy and becoming less hardcore.

"Thinning the Herd" Antischism/subvert split LP

This is a live in the studio lp, so the quality is good. Subvert is a great band who I'm surprised aren't more popular. they've got a few songs from "Free Your Mind" and a few new ones holding the same style, with is a thrashy metal (that holds itself together) with hardcore vocals. Antischism brings 14 songs onto their side, a lot of which are off their previous 7", but some new tunes are included too, continuing their insanity style hardcore. Together, two bands that deserve a lot of attention on a great record! (Mind control Records 2242 Butler Dallas TX 75235)

Lube Job comp 7"

SFA hooked up with these other Pittsburgh bands w/ a new powerful good tune. Necracedia (SFA's label mates) continue the HC tradition with a good punky tune! Doomwatch is sounding pretty hardcore on this tune, & yet kinda rockin, or should I say crankin. Submachine in contrast brings a more upbeat punky hardcore song. All together, these are some great bands, bringing together a good record, worth checking out! \$3.50 ppd to: Rust Records POB 81942, Pittsburgh PA 15217

Econochrist 7"

They've got their sound down, I think it's a California thing. Musically complex with all kinds of crazy things, dischordiant thrown in. & it's all pretty heavy hardcore with lots of guitar accents. Along the similarity lines of Born Against. Write : Vermiform POB 1145/ cooper Stn. NY NY 10276

Demise 7"

Pure hardcore, with the intense driving power and punch. Kinda old US style. It's punchy hardcore, but not mosh or metal at all Write to 2401 N Layton / Milw. WI 53221

ST1 comp.

this comp of political "peace punk" type bands has Media children with a new song, in the same style - very noisy and Shriill & Dirt like. Holocaust have a hollow & heavy driving hardcore sound. Social Insecurity are really thrashy & kinda noisy with that non-metal (acousticity guitar) sounds basement like. Unauthorized have a good tune much heavier & bassierAll together good political hardcore. Write: 332 Peachtree, Lima OH 45805

Econochrist/Detonators split 7"

2 songs from Econochrist with their gallopy variational hardcore. The vocals give it a strong identity & unique song. 1 song is a Devo cover of Uncontrollable Urge. Detonators are really old style HC/ punk very upbeat and punk rock man!! Write to Very Small Rec. POB 8223/ Emeryville CA 94662.

Inhuman conditions 7"

Not at all what I had expected. this is like old US style HC, reminiscent (vocals esp.) of Social Unrest. Guitar has a more metal tinge, but still very upbeat & medium melody HC/Punk. Excellent! \$5ppd to Holgar Schmidt/ Droste Holshoff Str. 42/W 4709 Bergkamen Germany.

stuff. This is a heavier and more powerful than their previous stuff, with an excellent recording and production job, that really do the songs justice. Cybergod with m/f dual vocals was my immediate favorite, but with each listen Body of Christ has grown on me, so they're now about equal both are incredible and this is totally worth checking out! (Allied Recordings)

Misery "Production Through Destruction"lp

Finally a full length lp, which includes some old tunes from the eps with news ones. Musically it's much the same and I still like it a lot, heavy hollow, nearly glooming with super bass that really stands out. the vocals are the weak part, that could really make it all much better.

Antisect "Live in the Darkness"

This is the official live recording taken from 1984's tour with Crucifix. This is the only multitrack live recording(also remastered at Southern Studios) which makes for an excellent live quality. All the songs are off the "In Darkness" lp. so this is a great way to get a hold of the rare material. The recording is really good with loud and clear vocals from an excellent band. UK pressing is sold out, But the US pressing is available (white vinyl) single copies \$9ppd to POB 2067 Pet. Stuy. Stn NY NY 10009. Distributed through Profane Existence.

Rorschach/Neanderthal split 7"

(comes with Dear Jesus #38) Rorschach are doing a thrashy hardcore which unlike the last 7" sound nothing like Neurosis. charles sound like he is gasping for a last breath in between pure thrashing hardcore. Also do a cover of Hardware by Septic Death. Neanderthal does pure noise thrash, 2 songs that speed right by.

P-1-9 "Look Again"7"

Members of Product 19 make up this bands, doing a funky rock n roll post hardcore with crazy guitar leads with some crunchy and clear spoken/sung vocals. \$3.50 ppd Ice Records POB 020154/BKLYN NY 11202-0004

Decline Of The Western Suburbs 7" comp.

the suburbs of Chicago are showing us what they've got in the hardcore world with samples of Time Out -tinge of metallic HC Apocalypse Hoboken - funky disjumbled sung song. Target with a much more melodic DC type sound. Slaphappy - harder & heavier punchy hardcore & Weedeater with a serious mosh style complete with chugga guitar, very NYHC style. \$3ppd to POB9711 Downers Grove IL 60515

Mathather comp 7"flexi

Things change has a good song that reminds me alot of the East Bay style HC, upbeat yet slight Calif melody (Econochrist type vocals) Sanity Assassins have a unique sound with a keyboard and singing, sort like early 80's new wave. Radiation Sickness, this dudes's vocal chords have been sliced to a rasping scream onto fairly powerful adn mosahable beat. Bobwirse have an antiwar thrashy fast hardcore song. Together this international deal has a lot of variety & all songs are pretty good to check out. For an IRC you can get the full catalog with more on these bands. \$5ppd Old World Records Jagerstr 19/3150Peine W. Germany.

Pay The Man 7"

Ok I feel like I'm at CBGB's at 3 am for the extra band. One side is pretty crazy with a woman vocalist, kinda whiney & lots of twist with music, like spastic guitar and tons of crash drums, which sound noisey. Side 2 brings male vocals which is more soothing, but still in a late night club. info 927 1/2 Lucille LA CA 90026

No Punks In the Pit comp 7"

This is a comp of Chicago area bands coming together & proving to all us doubtful people that there's some HC bands in chicao. Features Ivy League, dickey Mo both doing fairly melodic upbeat HC of the '90s, which is pretty abstract. Billingsgate has a harder more NY type drive to it. mannequin Hand is even more melodic on the emo core type sound. \$3ppd to Shake fork Records POB 9711 Downers Grove IL 60515

SFA "So What" lp

The second LP w/in a year of the first's release. NYHC, hatecore that even those who hate NYHC could like. the HC has gotten really heavy with some metallic guitar & vocals get pretty deep & gruff & pretty insane. It's hard to review things, when you were there for the recording, and you've heard it a hundred times. But this is really good and worth checking out, from a variety of crowds. Basicly good old hardcore with a funny Rudeboy song and an Ol song to, kinda hits from all angles. \$7ppd (or \$10 CD w/ Necracedia lp) to Wreckage Records 451 W. Broadway 2N NY NY 10012

The Wurst/ Jesus Chrst split 7"

This is the new Squat or Rot release with the Wurst from Providence doing a great side, turning out a powerful metallic crunchy hardcore. They're a great new band to keep and eye out for & this is a great first release. Jesus Chrst after quite some time finally have some vinyl of 3 great songs, that unfortunately suffer on this disc from production. The political, heavy punk rock song is there, and it's great, but the vinyl sounds really muddy and unclear. None the less they're a punk as fuck band, and since they've now broken up and I doubt they'll be doing any more records, this is well worth having. \$3.50ppd c/o Seaweed POB 20691 NY NY 10009

CLASSIFIED POLICY

First I want to say that I do not always agree with the classifieds that are printed. Recently I've had a problem with some of the classifieds I've been receiving, that I have found to be really offensive, especially to women. This has become an issue of much distress to me, because I don't know the fairest way to handle this. What I've decided is that if I find the classifieds to be threatening or offensive, or even degrading, I'm not going to print it. I really want to be fair about this and give people a fair chance, but at the same time I'm not going to print anything that really bothers me, so try to keep the hunting of women toned down a bit, okay and keep this in mind. I imagine that I will get some joke mail from this, to which I would say don't waste your time, but this is what I feel is a necessary step.

As before classifieds will be printed for free, but if you want a copy of the issue with your classified printed, you must send 2 stamped SASE (due to the increase in size).

TAPE REVIEWS

The following tape reviews were done by Brian K Trash

DESTROY COMPILATION TAPES (each \$5 ppd c/o Dave Fergusson/34A Bodney Rd./Hackney London E8 1AY) A shit load of tapes with a shit load of bands ("shit load is Wisconsin for "a lot") Mostly eighties UK punk bands. Sound quality varies from song to song (overall good) songs vary from OK to very good. Recommended.

OK, here's the shit load:

Bunk The Train And Kill the Inspector! Rare GBH (with a cover of the Damned's New Rose), Atavistic, Feed Your Head, Plus 3 others. 23 trax.

Dog Farts. with Conflict, Stupids, Chelsea, plus 5 others, 27 trax.

Destroy the World. Boston's very own Gang Green, Shrapnel (from Wales) plus 3 other bands from around the world.. 27 trax.

Pass The Merrydown. Another international compilation with Doom and five other bands from Yugoslavia to Japan. 25 trax.

Fuck Thy Neighbour. A "Punk" Compilation with a metal (with a small "m") edge. Kinda like in the Discharge tradition, kinda. 30 trax, 90 minutes of ear blistering, guitar blasting, fuckin' rock fuckin' roll.

Also on Destroy tapes:

Chelsea - "Urban Kids." Recorded live 1980, and 1988. 16 trax.

Senseless Things "Back to Nowhere." 13 live trax, 4 studio demo trax and a 5 song mini LP

Charged GBH "Timb Bomb" (Destroy Tapes) This is GBH at their best, live in '82. If you kinda live them (or remember once likin them) you'll love this recommended **The Hoolies** (Neil Cunningham/ 302 Laurie Court/ Stillwater MN 55052) If you can't say anything nice, don't say anything at all (Oh yeah, you do get a nice little book of lyrics.)

The Castle and Pies demo. (John Ariz/ 107 Culver Ave./ Jersey City/ NJ 07305) Jersey core. 7 ore so song cassette. Not bad, but nothing new. Ok, Castle n' Pies ok. OK?

Behind the Mask (various) (New Town Tapes c/o Aaron 62 Chaucer St./ Ilkeston/ Derbyshire England) Due to the recent squat eviction scare (the NYC press announced recently that all squats were going to be evicted, and shortly after a newly opened squat was evicted!) I haven't been able to properly review tapes, but out of all this havoc, this tape stands out. Good unusual mix, not your standard snooze-core. 9 different bands, 19 songs. recommended, very good.

NO Win Situation. (NWS 176 Seward St./ Buchanan NY 10511) Better than average hardcore. Funny cover drawing, too.

NO Fraud "Cheezier Than Thou" (No Fraud 475 Fox Glove Rd./ Venice Fl 34293) Not cheese, just cheddar. The cassette comes with reviews telling you how good they are. They're not. 4 songs for 4 bucks, now that's cheddar! I guess they won't be using this review..

Another Destructive System "Get Active" (OC Peace Punx Box 6188/ Fullerton CA 92634) "Music won't change People. Action and words will change people. Music can inspire." Intelligent written lyrics. punk core, kinda like Anti-system. Recommended.

SFA "So What?" (\$7ppd to Wreckage Records 451 W. Broadway 2N NY NY 10012) This is a personal fave. Guitars, bass heavy as hell, and hard as nails. Solid

Nomido 7 "Lifestyle Disease"

German imported punk. Catchy & positive. Male/Female vocals. 14 songs. Includes a 8 page booklet of lyrics/art. Good. Ax fer their tape list with live Amebix, Doom, Conflict etc. (avib. through Burning Bush tapes 3774 N Ambiewood/ Lima OH 56806)

Southern California Not Saudi Arabia (various)

Punk rock from southern California. some bands included on this compilation are "Mindrot, Holocaust & Filth (who recently played ABC NO RIO) Some choice cuts. Good, (Avib. the True foundation of Noise 27502 White fir Lane/ Mission Viejo CA 92691)

Social Outcast "No Blood For Oil"

Sing along punk-core with heavy guitar riffs. Well written lyrics. A five song cassette. Good. (Reaction POB 200641/Waterford MI 48329)

Comb

Listening to this, sick Pleasure comes to mind.. Er.. FU's...Er.... early 80's punk core. Angry music to chop up your girlfriend to. Complete with clips from Clockwork Orange and a clip form a porno movie to end the cassette. some songs ok, some sexist overtones. (comb POB 8515/Tacomahell WA 98408 -09575)

SFA "The New Morality"

This cassette/LP was recorded in 1989. Demilio Records continually lied about it's release date. Few years later it was finally released. New York City's hate core. SFA was originally formed in 1984. this September they will be touring Europe. Last December they recorded "So What?" for Wreckage Records. And this fall they'll be back in the studio to record a third lp. "The New Morality" was worth the wait. My fave song is "I want to be Alone". Good.

Shrinkwrap "Fear Loathing & Admiration"

Ok, this is Shrinkwrap. Intense industrial (before industrial mutated into dance music) Kinda German sheperd-ish. Heavy guitar noize, heavy percussion, samples. distrubing. this is shrinkwrap and i highly recommend it for those who are into the unusual. Not for the squeamish.

Dead Centre.

In the Guns n'Roses vein. Kinda southern blues/ rock. MTV bound. Unlistenable.

The Oxymerons "Bash On, Regardless"

Those Oxymerons from Dayton Ohio are back w/ another cassette (their previous release reviewed in S&L #20) Feel good soft-core. Good mix. Also a free 6 page mini-booklet of the lyrics! (POB 3445/ Dayton OH 45401)

Rejestracja/ Od Jutra

Some old fashioned Polish punk, served up w/ heeping helping of Rejestracja brand punk n' roll. And a slice of slowed down GBH ish punk. both bands are good, but OD Jutra is crucial. Recommended. (Jacek Dumala/ 07-200/ Wyszkwow Poland)

Uncle Smooth & the Lost Mayans

Art fuck/jazz fusion/junk rock. From the land of shopping malls and cow manure. Real Wisconsin cheese. Ear-ritating. Sorry Uncle Sm oothie. (542 W 25416 Dale Dr./ Waukesha WI 53186) You've Been Cheated (various).

I push play, oh no, it's some Madonna clone! Wait a minute, what's that thundering crash I hear! Hardcore punk from the UK, 90 min. 42 trax and a whole shit load of bands!! Turn up, drop out and blow an ear drum. Recommended headcleaner. (Destroy Tapes c/o Dave Fergusson 34 A Bodney Rd. London E8)

The Blanks demo.

It's Punk Rock! (Pedro) The Blanks have been very active in the NYC scene. they playout a lot, like last July they played a squat benefit for PEST house at ABC NO RIO (w/ the Wurst, Jesus

MAKING PUNK A THREAT AGAIN (About fucking time!)
JUST WHEN ALL HOPE WAS LOST (And the beer ran out)
IT'S THE RETURN OF (Winter in Minnesota? No...)
PROFANE EXISTENCE

Six months is just too fucking long between issues so we're returning with a horrendous double issue of that magazine which topples governments with every new edition. This new system-shattering issue is a devastating 40 giant pages (some even in realistic color!) packed with action, entertainment, enlightenment and just plain down-to-earth chaos. New features include "Protest to Resistance" -- designed to topple western-imperialist-oligarchies (maybe); "Fucking Alternative...Fucking Punk Rock" -- a page-by-page guide on the shit-hot trends in alternative lifestyles (sorta); as well as all the usual features (well, most) like letters (rants), columns (raves), regional reports (rousing), and little bits of sharpened wit about all the latest by-products of the punk movement (reviews). This issue is so fucking punk even your parents will be wearing mohawks and chains after reading it (or else they'll burn it and have you sent away)... with interviews with ANARCHRUST, CITIZEN FISH, RORSCHACH, and Martin Sprouse, to name but a few.

remember once (like them) you love this recommendation
The Hoodies (Neil Cunningham/ 302 Laurie Court/
Stillwater MN 55052) If you can't say anything nice, don't
say anything at all (Oh yeah, you do get a nice little book
of lyrics.)

The Castle and Pies demo. (John Ariz/ 107 Culver Ave./
Jersey City/ NJ 07305) Jersey core. 7 ore so song
cassette. Not bad, but nothing new. Ok, Castle n' Pies
ok. OK?

Behind the Mask (various) (New Town Tapes c/o Aaron
62 Chaucer St./ Ilkeston/ Derbyshire England) Due to the
recent squat eviction scare (the NYC press announced
recently that all squats were going to be evicted, and
shortly after a newly opened squat was evicted!) I haven't
been able to properly review tapes, but out of all this
havoc, this tape stands out. Good unusual mix, not your
standred snoze-core. 9 different bands, 19 songs.
recommended, very good.

NO Win Situation. (NWS 176 Seward St./ Buchanan NY
10511) Better than average hardcore. Funny cover
drawing, too.

NO Fraud "Cheezier Than Thou" (No Fraud 475 Fox Glove
Rd./ Venice Fl 34293) Not cheese, just cheddar. The
cassette comes with reviews telling you how good they
are. They're not. 4 songs for 4 bucks, now that's
cheddar!! I guess they won't be using this review..

Another Destructive System "Get Active" (OC Peace
Punx Box 6188/ Fullerton CA 92634) "Music won't
change People. Action and words will change people.
Music can inspire." Intelligent written lyrics. punk core,
kinda like Anti-system. Recommended.

SFA "So What?" (\$7ppd to Wreckage Records 451 W.
Broadway 2N NY NY 10012) This is a personal fave.
Guitars, bass heavy as hell, and hard as nails. Solid
drumming, and Brendan's vocals sounds as if Satan
himself is being exorcised. A good mix of styles, includ-
ing a sarcastic tribute to SKA (guarenteed to be a smash
at a skinheads party) I would be listening to it right now,
but I lent to Greg Maggot. Highly recommended.

Shrinkwrap "Fear Loathing & Admiration"

Ok, this is Shrinkwrap. Intense industrial (before industrial
mutated into dance music) Kinda German sheperd-ish. Heavy
guitar noize, heavy percussison, samples. distrubing. this is
shrinkwrap and i highly recommend it for those who are into the
unusual. Not for the squeamish.

Dead Centre.

In the Guns n' Roses vein. Kinda southern blues/ rock. MTV
bound. Unlistenable.

The Oxymerons "Bash On, Regardless"

Those Oxymerons from Dayton Ohio are back w/ another
cassette (their previous release reviewed in S&L #20) Feel good
soft-core. Good mix. Also a free 6 page mini-booklet of the
lyrics! (POB 3445/ Dayton OH 45401)

Rejestracja/ Od Jutra

Some old fashioned Polish punk, served up w/ heeping helping
of Rejestracja brand punk n' roll. And a slice of slowed down GBH
ish punk. both bands are good, but OD Jutra is crucial.
Recommended. (Jacek Dumala/ 07-200/ Wyszkw Poland)

Uncle Smooth & the Lost Mayans

Art fuck/ jazz fusion/ junk rock. From the land of shopping malls
and cow manure. Real Wiconsin cheese. Ear-ritating. Sorry
Uncle Sm oothie. (542 W 25416 Dale Dr./ Waukesha WI 53186)
You've Been Cheated (various).

I push play, oh no, it's some Madonna clone! Wait a minute,
what's that thundering crash I hear! Hardcore punk from the
UK, 90 min. 42 trax and a whole shit load of bands!! Turn up,
drop out and blow an ear drum. Recommended headcleaner.
(Destroy Tapes c/o Dave Fergusson 34 A Bodney Rd. London
E8)

The Blanks demo.

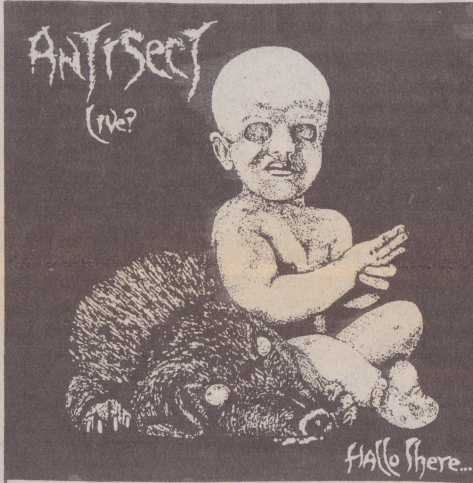

It's Punk Rock! (Pedro) The Blanks have been very active in the
NYC scene. they playout a lot, like last July they played a squat
benefit for PEST house at ABC NO RIO (w/ the Wurst, Jesus
Christ, Maggot & summers eve. And now they released a
cassette. 77 stylepunk. 7 songs, and profits go to Greenpeace..
Oh yeah, they might have to change their name to the Blanks 77
(isn't it the '90's) because there's two too many Blanks already.
(Greenearth Tapes. 96 Frederick St./ Carteret NJ 07013)
